Written Testimony

The city must keep the funding to purchase and protect Kānewai Spring. The spring and the Kaluaha'iha'i fishpond are critical to re-establishing community stewardship and to train our future generations on sustainability and Hawaiian world view. Kānewai Spring complex can be our example to the world that sustainability through Native Hawaiian technology works even in the Honolulu urban core. With the City's help we can reconnect people to the 'āina and give hope to our keiki. Our Civic Club and the Association of Hawaiian Civic Clubs have passed resolutions protecting this freshwater complex and education center.
